

Our Quality Policy

This Policy reflects AGITO's values, expresses the company's commitment to quality, and it encapsulates the leadership's purpose for the entire organization.

It is defined by the following principles and behaviors:

- **Collaborate to support our customers and provide safe, effective and reliable products and services**
- **Work with integrity and in compliance with applicable internal and external regulations and standards**
- **Support and maintain the effectiveness of the quality management system based on efficient processes, well-defined measurements, and customer feedback**
- **Drive continuous improvement and innovation by developing our team's competencies, empowering them towards accountability and strong quality mindset**

We are all committed to understanding and maintaining the Quality Policy.

By embodying these guiding principles and AGITO Medical's values, we are accountable for meeting and exceeding our customers' expectations with best-in-class products and services.
